

# Changing the game

## with continual innovation

Our HITOX<sup>®</sup> TiO<sub>2</sub> pigment is an example of our ongoing innovation. The unique Beige and Gray Coloured TiO<sub>2</sub> pigments are produced for use in a broad range of non-white colours offering formulation cost savings for paints, coatings and plastics. HITOX<sup>®</sup> can reduce the amount of expensive organic & inorganic pigments and white TiO<sub>2</sub>.

**If you don't have these pigments, CALL US TODAY!**
