

Changing the game

with advanced corrosion protection

Our Flash Rust Inhibitors from Vibrantz Technologies, Nubirox FR 10 is an example of our advanced corrosion protection solutions.

Offering the following benefits:

- Prevents Flash Rust and In-can Rust.
- Useful at a short-term temporary protective wash.
- Effective in the liquid and in the vapour phase at low loading on a variety of metal substrates.
- Can be incorporated at any stage in the coating manufacturing process, even post addition.
